CALVARY
Baptist Church

May 28, 2020

Dear Church Family,

This is the Preparedness Plan for re-opening the church on May 31, 2020.
Also find attached Floor Plan which graphically outlines seating guidelines.

1. The Church gets cleaned and now also sanitized. This is happening, and will continue after each service. We have been working and will continue to work with the Custodial Staff.
2. Enter the building from the Lobby at Glenoaks. The doors will be held open, so you won't need to touch the handles.
3. All attending church are required to be in good health and wear a mask when entering the premise. Maintain 6' social distancing where possible. You are strongly encouraged to wear a mask as much as possible. The mask is for protection of those around you.
4. If you're sick, have a temperature, fever or cough please stay home.
5. Greeter will provide hand sanitizer for each attendee, and wipes as needed.
6. Usher will direct you to open pew. Every other pew will be closed to provide the 6' separation. Use your judgement on family sitting and provide 6' to adjacent non family person.
7. Those with greater concern should sit toward the back and those with less concern toward the front.
8. Exiting to be through the pair of doors on each side of pulpit. Try to maintain the 6' distancing.
9. Offering plate will not be passed, Offering Box will be located in back of Sanctuary
10. Children's church canceled until further discussion/decisions.

Statement of Waiver of Liability and Assumption of Risk Related to Coronavirus/COVID-19
By attending Calvary Baptist Church, you acknowledge the contagious nature of COVID-19 and voluntarily assume the risk that you and your family may be exposed to or infected by COVID-19. You also acknowledge that the risk of becoming exposed to or infected by COVID-19 may result from actions, omissions, or negligence of yourself and/or others, including, but not limited to, Ministry employees, volunteers, members, and participants and their families. You agree to assume all forgoing risks, waive liability against the Ministry and any other listed parties, and accept sole responsibility for any illness, injury, disability, or death to you or your family, including all claims that may arise resulting from any of these.

Sincerely,

Bruce D. Parsons

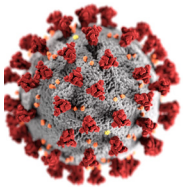
What you should know about COVID-19 to protect yourself and others



Know about COVID-19

- Coronavirus (COVID-19) is an illness caused by a virus that can spread from person to person.
- The virus that causes COVID-19 is a new coronavirus that has spread throughout the world.
- COVID-19 symptoms can range from mild (or no symptoms) to severe illness.

Know how COVID-19 is spread

- You can become infected by coming into close contact (about 6 feet or two arm lengths) with a person who has COVID-19. COVID-19 is primarily spread from person to person.
- You can become infected from respiratory droplets when an infected person coughs, sneezes, or talks.
- You may also be able to get it by touching a surface or object that has the virus on it, and then by touching your mouth, nose, or eyes.

Protect yourself and others from COVID-19

- There is currently no vaccine to protect against COVID-19. The best way to protect yourself is to avoid being exposed to the virus that causes COVID-19.
- Stay home as much as possible and avoid close contact with others.
- Wear a cloth face covering that covers your nose and mouth in public settings.
- Clean and disinfect frequently touched surfaces.
- Wash your hands often with soap and water for at least 20 seconds, or use an alcohol-based hand sanitizer that contains at least 60% alcohol.

Practice social distancing

- Buy groceries and medicine, go to the doctor, and complete banking activities online when possible.
- If you must go in person, stay at least 6 feet away from others and disinfect items you must touch.
- Get deliveries and takeout, and limit in-person contact as much as possible.

Prevent the spread of COVID-19 if you are sick

- Stay home if you are sick, except to get medical care.
- Avoid public transportation, ride-sharing, or taxis.
- Separate yourself from other people and pets in your home.
- There is no specific treatment for COVID-19, but you can seek medical care to help relieve your symptoms.
- If you need medical attention, call ahead.

Know your risk for severe illness

- Everyone is at risk of getting COVID-19.
- Older adults and people of any age who have serious underlying medical conditions may be at higher risk for more severe illness.

To keep us all healthy, we ask…

Do not enter if you feel sick or have had a fever or cough

Maintain **6-ft of distance** at all times from others

Use a **face covering** over your nose and mouth

Wash your hands frequently with soap or hand sanitizer
